Saleem R Sheikh

Senior Partner,
GSC Solicitors LLP

Since 1972, GSC Solicitors have built a reputation for being trusted advisors to successful entrepreneurs, thought leaders, ambitious start-ups and global brands.

Often, what begins as a relationship based in one area of business law evolves and expands to others, including real estate, commercial litigation, intellectual property, international off-shore structuring, and legal representation for ultra-high net worth clients.

Private or commercial, we protect your interests by understanding your business. Through thick and thin, good times and bad, we stand loyally and faithfully beside our clients.

GSC lawyers think entrepreneurially. We have a holistic understanding of business, of technology and of the climate in which you operate. It's what makes us business partners rather than simply business lawyers, with a personal approach to building relationships, an understanding of what needs to be done, and the tenacity and ability to make it happen.

No other London law firm of comparable size speaks so many languages in-house. For our clients, that cultural understanding is hugely important, because it means they can deal with us on their terms, with nothing lost in translation.

For all these reasons, and many more, GSC clients are clients for life. We are lawyers, advisors, commercial partners and friends. I very much hope we can be yours.
